- Nearly 20yrs experience
- Behavioral economist
- Hope College BA, Caltech PhD
- Believes in making AI accessible via the **Jobvite AI Innovation Lab**
- Fun fact: in college drove a forklift 3rd shift...and damaged a lot of Snapple

WHAT ARE WE TALKING ABOUT??

- An overview of the AI and automation landscape
- Key questions when applying new technologies to recruiting
- What the future of talent acquisition holds for candidates and employers

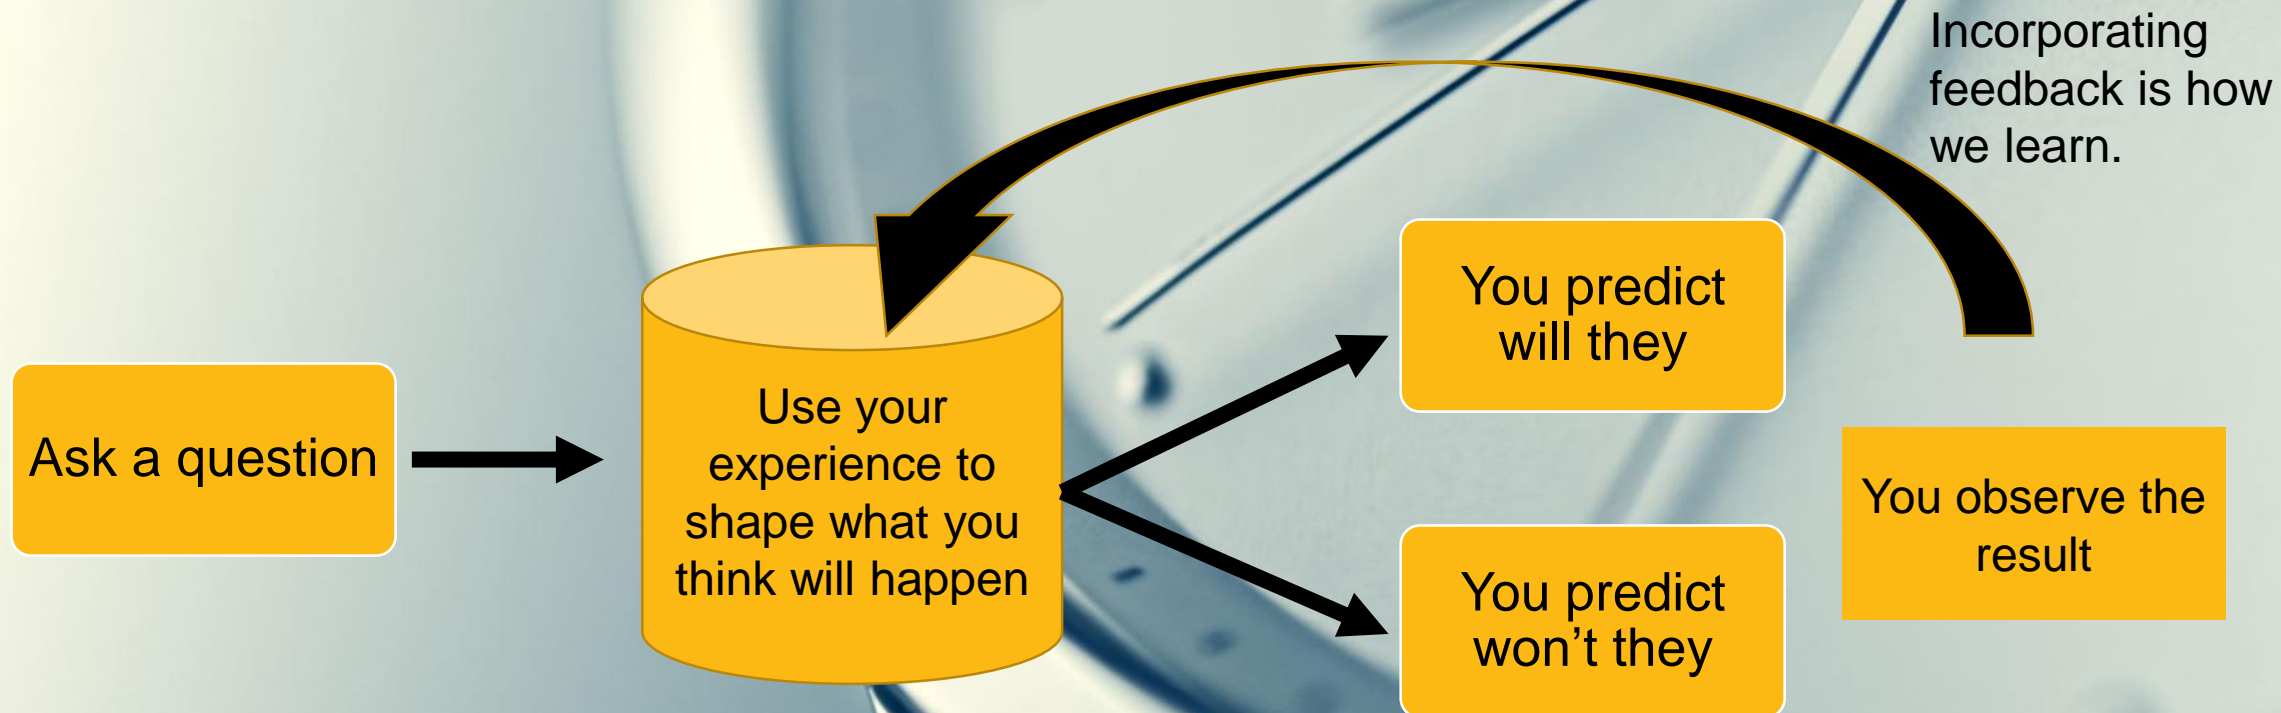

AN OVERVIEW OF AI

A 5-MINUTE OVERVIEW OF SIMPLE AI

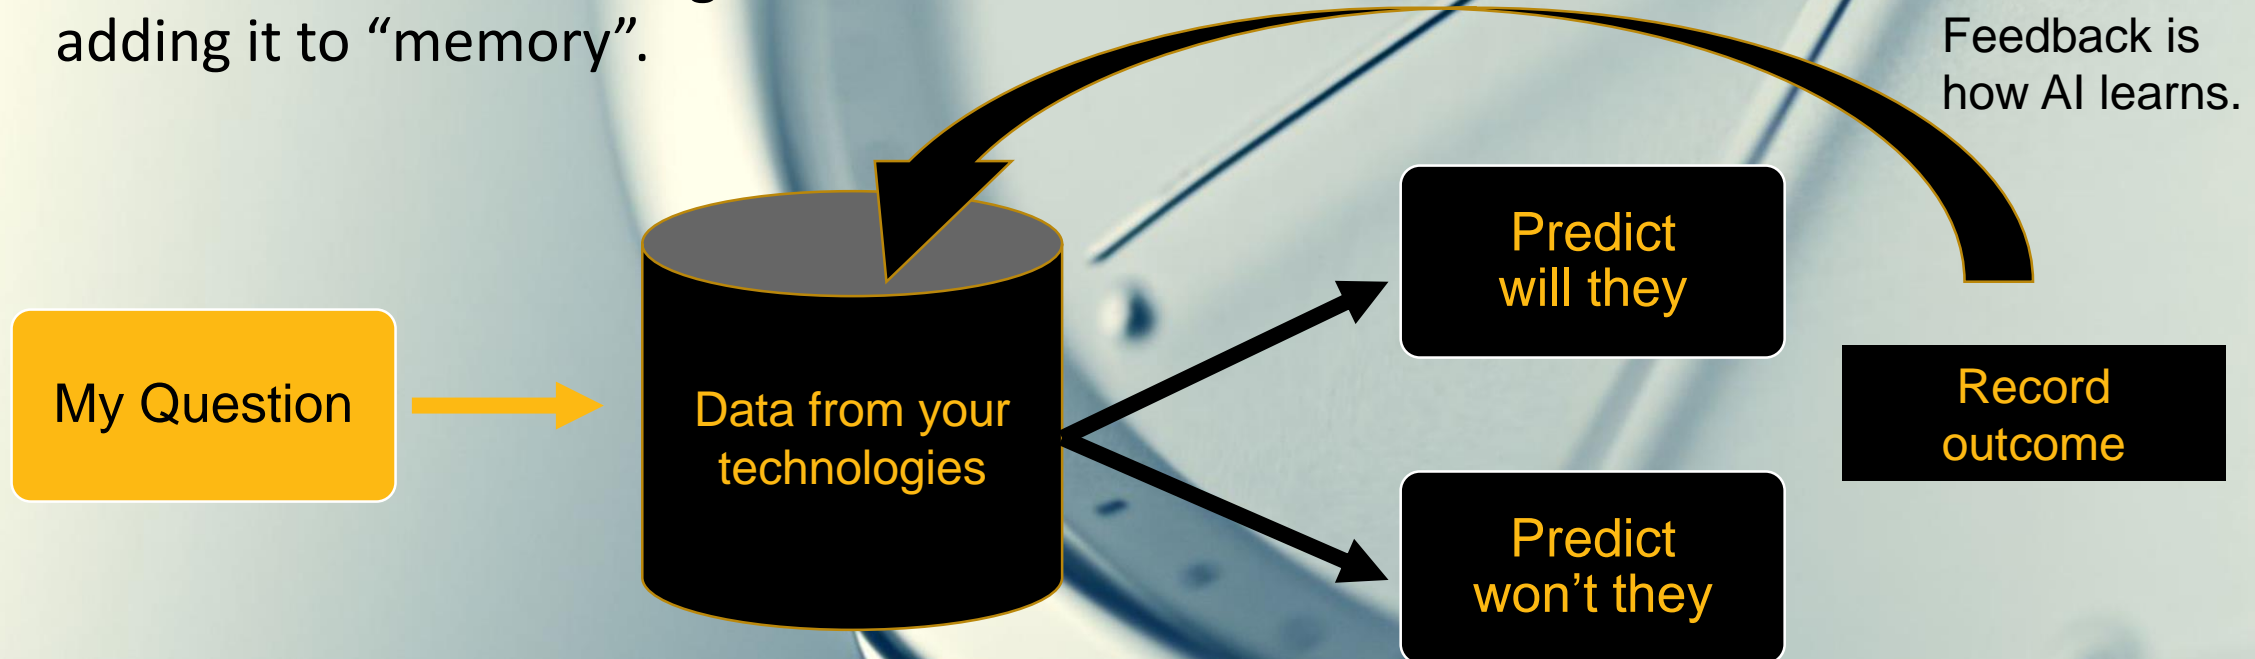

- We're all familiar with the classic line,
"There are two types of people in this world..."
- So how do we solve this problem?

A 5-MINUTE OVERVIEW OF SIMPLE AI

In many cases, this is how AI works; *and it remembers everything!*

- AI takes our question and “carves” it up into two outcomes; A or B.
- Using the data, the AI algorithm predicts which is more likely.
- AI “learns” like us. Taking the outcome and adding it to “memory”.

HOW WILL AI AND AUTOMATION COME TOGETHER?

Marketing

- Optimized Communications
- Personalized Experiences

D&I

- Skills match without PII

Screening

- Inclusive vs Exclusive
- Speed and Efficiency
- Bots

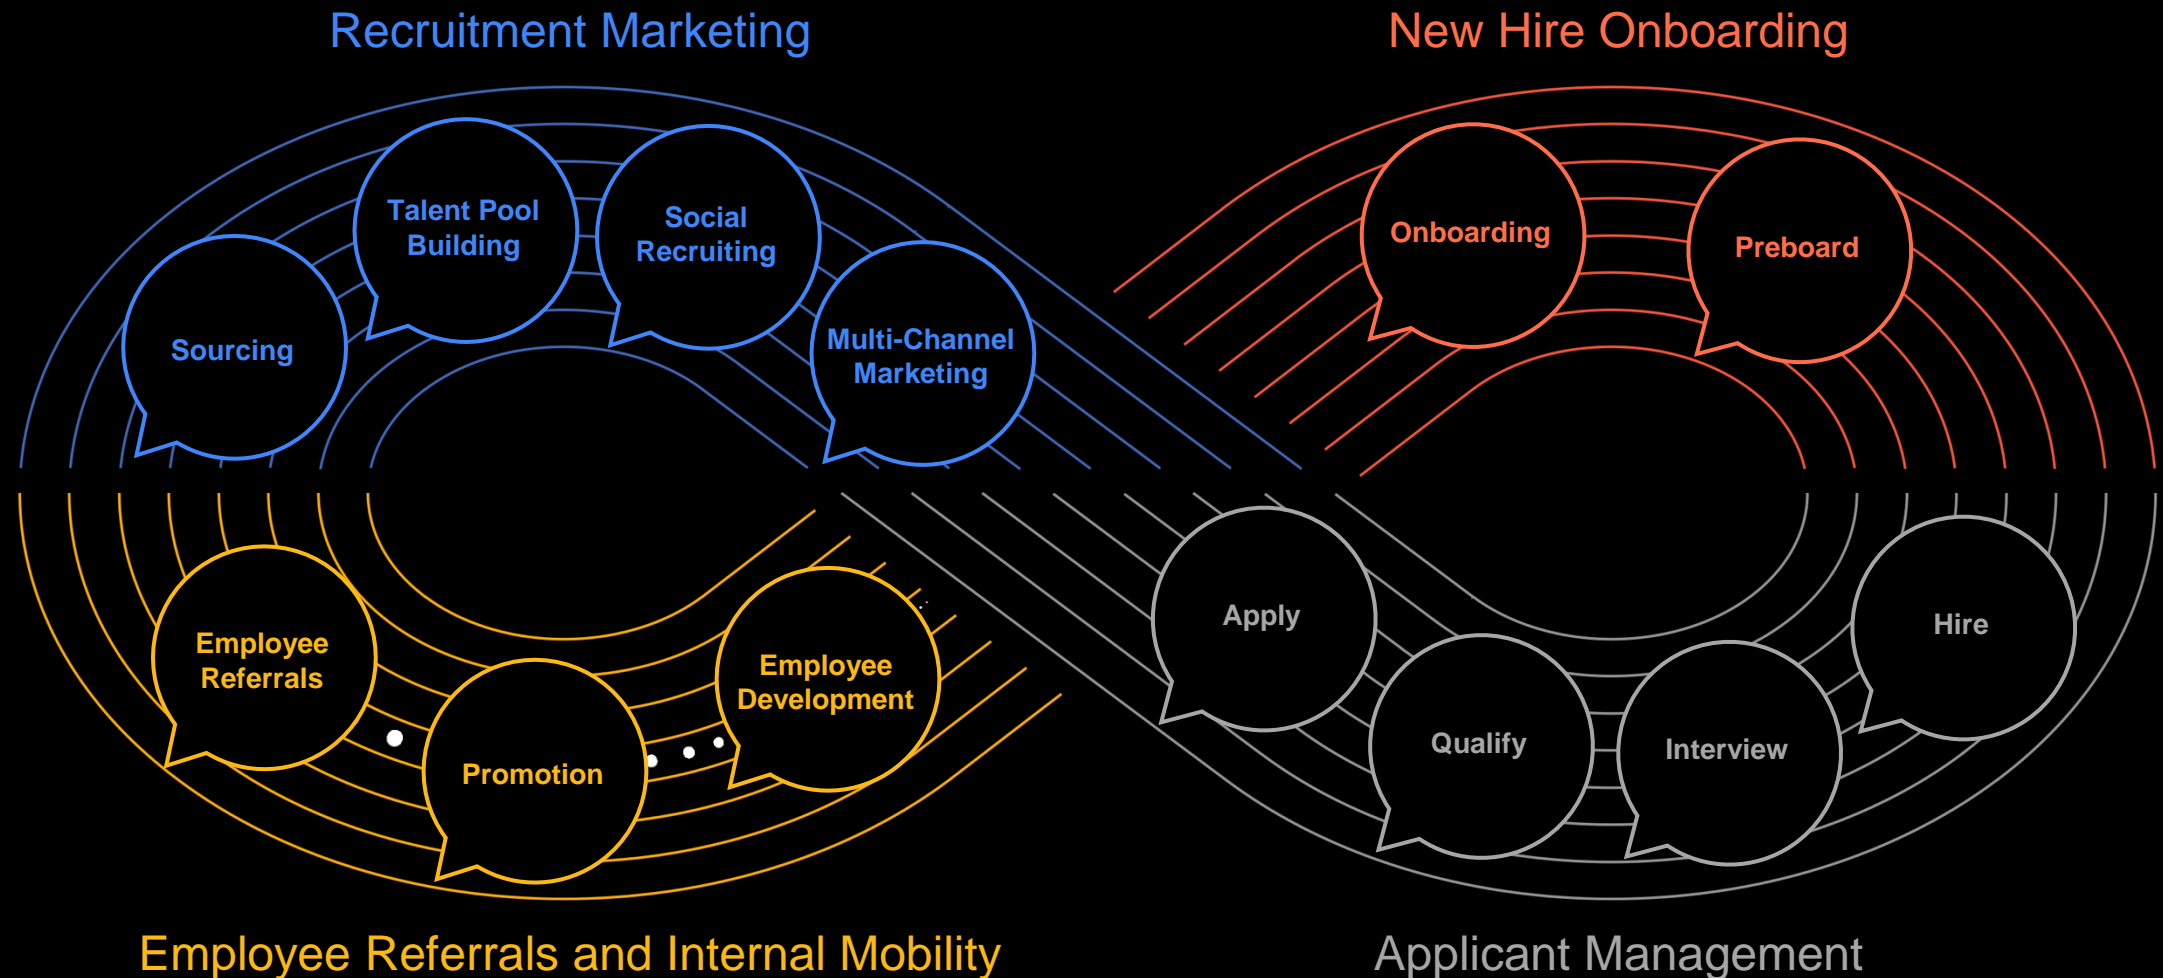

Interviewing

- Scheduling
- Forms
- Recommended Questions

Onboarding

- Streamlined Experience

HOW SHOULD YOU BE THINKING ABOUT THE TA PROCESS?

**WHAT SHOULD YOU
ASK?**

QUESTIONS FOR YOU TO KEEP IN MIND

- 1) What do I need to get started?
- 2) Do I need to understand the technical details?
- 3) How is D&I incorporated into the solution?
- 4) Does my data leave the platform?

WHAT DOES THE FUTURE HOLD?
